Your Path to OSCM Excellence

The IIM Indore Executive Programme in Operations and Supply Chain Management is a comprehensive 12-month online certification for working professionals seeking to deepen their expertise. This programme blends theoretical foundations with practical insights, focusing on contemporary topics in the field. It is designed to develop the necessary knowledge of processes and techniques used in managing operations and supply chain activities. Participants will be equipped with the tools and strategies to navigate today's dynamic business environment, enabling them to challenge, innovate, and solve complex problems.

Who Should Apply?

- Early-Career Professionals aspiring to become future-ready supply chain experts or drive tech innovations.
- Emerging and Senior Leaders looking to advance their careers in tech-driven global supply chains by leveraging data-driven insights.
- Consultants and Entrepreneurs focusing on tech-led supply chain advancements.

The Thriving Global Supply Chain Industry

The **'Make in India'** initiative, economic growth, globalisation, and rising competition have led to an increased demand for Operations Management professionals in India

The global SCM market valuation is projected to grow to over **\$72 billion** by the **mid-2030s**.

Source: Fortune Business Insights.

India's supply chain management market will grow at a CAGR of **11.12%** and will be valued at **\$5.5 billion** in **2032**

Source: Markets & Data

Three Next-Gen Trends Shaping the Future of OSCM

Shifting Labour Supply

Emerging economies like India are expected to contribute significantly to labour supply by the end of the decade.

Intelligent Machines

AI is expected to create unprecedented efficiency and value (\$5 trillion in business) in the coming years and reshape job roles in supply chain management.

Everything is Connected

Supply chain leaders are expected to adopt a circular economy, where a used product must be returned, recycled, adopted and reused, as creating waste would be unacceptable by 2029.

Curriculum

Introduction

- Introduction to operations and supply chain management
- Logistics in operations and SCM
- Key concepts: Cycle time, throughput and work-in-process

Quantitative Techniques for OM/SCM

- Introduction to statistics
- Mathematical programming
- Queuing theory and simulation

The IIM Indore Campus Immersion: An Unforgettable Experience

Elevate your online learning journey with an exclusive **3-day** campus immersion at the prestigious **IIM Indore**. This is a unique opportunity to step out of the virtual classroom and into the vibrant academic environment of one of India's **top-tier B-schools**.

Over three transformative days, you will:

Engage in **12** specially curated academic sessions

Connect face-to-face with distinguished **IIM faculty**

Network with your talented cohort of **industry professionals**

This immersive experience is designed to deepen your understanding, foster invaluable collaborations, and provide a unique glimpse into the IIM Indore culture of excellence.

Please note: The on-campus module is subject to the prevailing health and safety guidelines at the time of the event to ensure a safe and enriching experience for all participants

What Our Alumni Say:

Naveen Ayyalasomayajula

Deputy Manager - Sales | Xpressbees Logistics Solutions

“Over the course of the programme, I received valuable collaborative learning experiences from various professional leaders & faculty. If someone early in his/her career wants to pursue SCM, they should definitely experience this programme.”

Atul Matte

Assistant General Manager | NACL Industries Ltd.

“The insights gained have significantly enhanced my strategic thinking and decision-making skills, positively impacting both my professional responsibilities and personal growth. I firmly believe that enrolling in this Programme was a well-considered investment that will yield long-term benefits.”

What Our Alumni Say:

Harsh Kaundin

PCD, Material Planner, Engineer | DENSO

“I chose the Executive Programme in Operations and Supply Chain Management at IIM Indore because I wanted to strengthen my strategic understanding of SCM, go beyond practical exposure, and align with global best practices. Since starting the course, I’ve gained a far deeper understanding of lean systems, analytics-driven decision-making, and end-to-end supply chain optimization. I highly recommend this course to working professionals who want to break out of operational silos and develop a strategic lens toward operations and supply chain.”

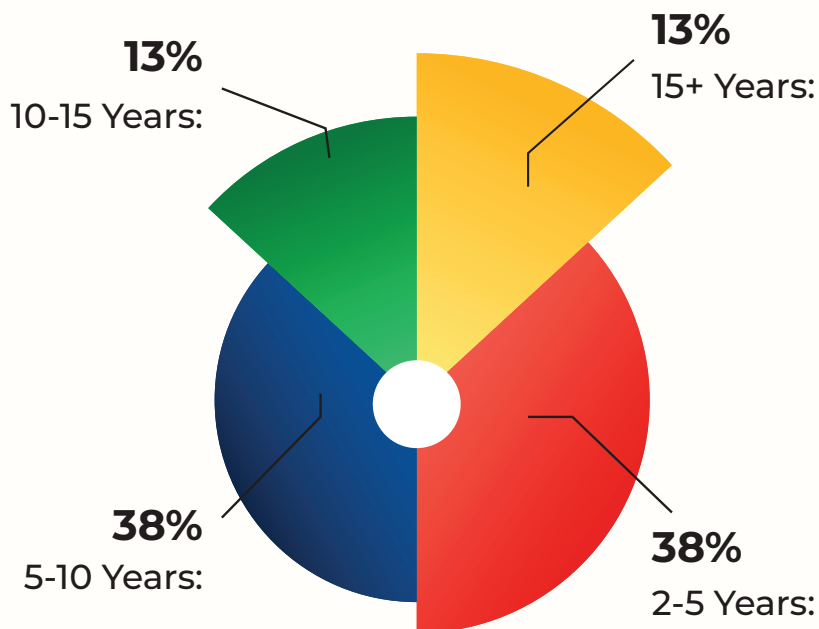

Anubhav Mathur

Manager - Supply Chain | Gunnebo Entrance Control India Pvt Ltd

“The Executive Programme in Operations & Supply Chain Management from IIM Indore has been a transformative experience. The faculty brought deep industry insights and academic rigor, making every session engaging and highly relevant. This programme not only sharpened my analytical and strategic thinking in supply chain management but also provided me with tools to drive operational efficiency and resilience in my organization.”
